Environmental Impact Assessment Review

www.elsevier.com/locate/eiar

Contents Volume 20

Volume 20, Number 1, February 2000

Notes on authors 1

Letter to the editor 3

Features

What should be the "cultural resources" element of an EIA? 5
Thomas F. King

Integrated assessment for sustainability appraisal in cities and regions 31
Joe Ravetz

Implementation of SEA in Flanders: Attitudes of key stakeholders and a user-friendly methodology 65
Dimitri Devuyst, Thomas van Wijngaarden and Luc Hens

EIA procedure

Broadening the scope of mine water environmental impact assessment: a UK perspective 85
Adam P. Jarvis and Paul L. Younger

Strengthening EIA through adaptive management: a systems perspective 97
Bram F. Noble

Significance of decision-making for LCA methodology 113
Anne-Marie Tillman

Quantitative methods

Quantifying the transient response of ecological-economic systems to perturbations 125
Amitrajeet A. Batabyal

Volume 20, Number 2, April 2000

Notes on authors 135

Features

Assessing health impacts of air pollution from electricity generation: the case of Thailand 137
Bui Duy Thanh and Thierry Lefevre

Human health damages due to ionising radiation in life cycle impact assessment 159
Rolf Frischknecht, Arthur Braunschweig, Patrick Hofstetter, and Peter Suter

EIA in Brazil: a procedures–practice gap. A comparative study with reference to the European Union, and especially the UK 191
John Glasson and Nemesio Neves B. Salvador

QUANTITATIVE METHODS

Assessment of potential impacts of agricultural practices on the environment: the AGRO*ECO method 227
Philippe Girardin, Christian Bockstaller, and Hayo Van der Werf

Is it feasible to address indoor climate issues in LCA? 241
Åsa Jönsson

Volume 20, Number 3, June 2000

Editorial 261

An integrated planning tool for sustainable cities 265
Jan Rotmans, Marjolein van Asselt and Pier Vellinga

The role of models in arguments about urban sustainability 277
Christopher Tweed and Phil Jones

An applied method for the assessment of sustainability of urban pilot projects 289
Enrique J. Calderón

Planning the urban sustainable development: The case of the plan for the province of Trento, Italy 299
Corrado Diamantini and Bruno Zanon

A framework for systems analysis of sustainable urban water management 311
Daniel Hellström, Ulf Jeppsson and Erik Kärrman

Need for improved methodologies and measurements for sustainable management of urban water systems 323
Jean-Luc Bertrand-Krajewski, Sylvie Barraud and Bernard Chocat

Different approaches to assessment of design and management of sustainable urban water systems 333
Michiel A. Rijsberman and Frans H.M. van de Ven

Assessing the sustainability of small wastewater systems: A context-oriented planning approach 347
Birgitte Hoffmann, Susanne Balslev Nielsen, Morten Elle, Søren Gabriel, Anne Marie Eilersen, Mogens Henze and Peter Steen Mikkelsen

"The green poster": A method to evaluate the sustainability of the urban green structure 359
Kine Halvorsen Thorén

EcoBalance model for assessing sustainability in residential areas and relevant case studies in Finland 373
Irmeli Harmaajärvi

A guide to community sustainability indicators 381
Anke Valentin and Joachim H. Spangenberg

The application of Strategic Environmental Assessment to sustainability assessment of infrastructure development 393
Rosa Arce and Natalia Gullón

Assessing the potential for change in urban infrastructure systems 403
Susanne Balslev Nielsen and Morten Elle

Relevance of some criteria for sustainability in a project for disconnecting of storm runoff 413
Oddvar G. Lindholm and Terje Norde

Volume 20, Number 4, August 2000

Notes on authors 425

VIEWPOINT

Why are some experts more credible than others? 427
Branko Kontic

FEATURE

Life cycle assessment as a tool in environmental impact assessment 435
Arnold Tukker

EIA PROCEDURE

The effectiveness of provisions and quality of practices concerning public participation in EIA in Italy 457
Luca Del Furia and Jane Wallace-Jones

QUANTITATIVE METHODS

Understanding the role of forest simulation models in sustainable forest management 481
Changhui Peng

Volume 20, Number 5, October 2000

Notes on authors 503

VIEWPOINT

On the regulation of frightening technologies: Some lessons from pesticides 505
R. Don Wauchope

FEATURES

Impacts during project anticipation in Molas, Indonesia: Implications for social impact assessment 513
Jennifer L. Walker, Bruce Mitchell, S. Wismer

Is what you see what you get? Post-development auditing of methods used for predicting the zone of visual influence in EIA 537
Graham Wood

Looking at the quality of draft environmental impact statements over time in the United States: Have ratings improved? 557
Kelly Tzoumis, Linda Finegold

EIA PROCEDURE

Framework for environmental impact assessment in Lebanon 579
M. El-Fadel, M. Zeinati, D. Jamali

Volume 20, Number 6, December 2000

Notes on authors 605

FEATURES

Planning theories and environmental impact assessment 607
David P. Lawrence

Rethinking human health impact assessment 627
A. Steinemann

Elements of an SEA framework—improving the added-value of SEA 647
Maria Rosário Partidário

EIA PROCEDURE

Landscape ecology and conservation management—Evaluation of alternatives in a highway EIA process 665
João P. Fernandes

Environmental impact assessment (EIA) as collaborative learning process 681
Heli Saarikoski
